## CECONOMY AG

Update following downgrade to B1, outlook stable

### Summary

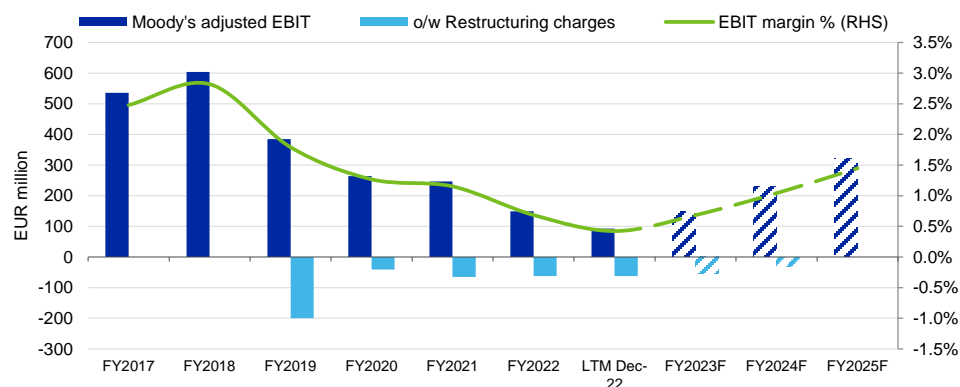

On 21 February 2023, we [downgraded CECONOMY AG's](#) (Ceconomy) corporate family rating (CFR) to B1 from Ba3, reflecting the company's weak operating margins, the deterioration in its credit metrics and the uncertainty surrounding the company's pace of profitability recovery, which could be a multiyear turnaround given the difficult trading environment and the ongoing transformation projects.

Ceconomy's B1 CFR is constrained by the company's weak profitability and thin profit margins compared with those of its peers; the current difficult trading conditions in Europe because of high inflation, which will likely constrain earnings recovery in the next 12-18 months; the highly competitive, value-driven consumer electronics market, with the accelerated shift to online creating some structural margin dilution; the discretionary and seasonal nature of demand for large parts of the product range; and the company's high management turnover, weak track record of earnings and free cash flow (FCF) improvement since 2018.

More positively, the rating incorporates the company's position as Europe's largest electronics retailer, with geographically diversified operations; strong distribution network and improving omnichannel capabilities; conservative financial profile, supported by low funded debt and short lease commitments; and an equity stake of around 24% in [FNAC DARTY SA](#) (Fnac, Ba2 stable) and the related potential long-term benefits.

Exhibit 1

**We expect Ceconomy's profitability to remain low over the next 12-18 months**  
Moody's-adjusted EBIT and EBIT margin

Fiscal year (FY) ends on 30 September.  
Source: Moody's Investors Service

## Credit strengths

- » Largest European consumer electronics retailer, with geographically well-diversified operations across 13 countries
- » Leading market positions in Europe, supported by strong brand recognition
- » Strong distribution network and improving omnichannel capabilities
- » Low funded debt and short lease commitments

## Credit challenges

- » Very low profitability translating into limited FCF
- » A difficult trading environment because of high inflation and weak consumer sentiment
- » Exposure to seasonal activities, discretionary products and intense competition
- » Highly seasonal business with large working capital swings
- » Management turnover and weak track record of earnings and FCF improvement in the last five years

## Rating outlook

The stable rating outlook reflects our expectations that Ceconomy's profitability will improve gradually over the next 24 months supporting stronger FCF. The outlook assumes continued progress in the company's transformation plan. The stable outlook also incorporates our expectations that the company will maintain adequate liquidity.

## Factors that could lead to an upgrade

A rating upgrade is unlikely at this stage, considering the recent rating downgrades and the difficult operating environment. Upward rating pressure could develop over time if:

- » Ceconomy demonstrates an improvement in Moody's-adjusted EBIT margin to well above 2.0% on a sustainable basis, to provide the company sufficient buffer against external pressures and potentially rising cost of debt;
- » its interest cover (calculated as the ratio of Moody's-adjusted EBIT to interest expense) improves well above 3.0x;
- » its FCF is materially positive on a sustained basis;
- » its Moody's-adjusted (gross) debt/EBITDA remains sustainably below 4.0x; and
- » it has good liquidity and maintains prudent financial policies.

## Factors that could lead to a downgrade

A rating downgrade would likely occur if:

- » Ceconomy's profitability and FCF do not improve on a sustainable basis in the next 12-24 months, in line with the company's current expectations of a substantial increase in EBIT (as adjusted by the company);
- » failure to gradually improve margin towards 2%;
- » failure to improve interest cover sustainably towards 2.5x over the next two years before the bond refinancing; or
- » more aggressive financial policies, a deterioration in liquidity or signs that trade creditor terms become less favourable.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on <https://ratings.moody.com> for the most updated credit rating action information and rating history.

## Profile

Headquartered in Düsseldorf, Germany, CECONOMY AG (Ceconomy) is Europe's largest consumer electronics retailer, operating two brands — MediaMarkt and Saturn. The company reported €22 billion in revenue in the 12 months that ended 31 December 2022. It is listed on the Frankfurt Stock Exchange and had a market capitalisation of around €1.3 billion as of 20 February 2023. The company has five anchor shareholders: Convergenta, Haniel, Meridian Stiftung, freenet AG and Beisheim.

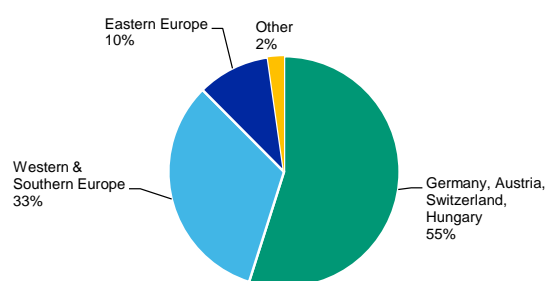

Ceconomy owns a c.24% stake in the French consumer electronics retailer Fnac, and includes its proportion of Fnac's earnings in its reported EBITDA and EBIT. However, in accordance with our standard practice, we remove this income from the Moody's-adjusted calculations of the company's profitability and relevant credit metrics.

The company was established from the demerger of the former METRO Group, whose operations were split in July 2017 between Ceconomy and Metro Wholesale & Food Specialist (Metro).

## Detailed credit considerations

### Deterioration in credit metrics and weak profitability, which will take several years to substantially improve

We expect Ceconomy's profitability to remain weak for the next 12 months because of high inflation and intense competition.

Ceconomy's underlying earnings and margins are structurally weak and provide a limited buffer against potential sales volatility. The

company has a high fixed-cost structure because of its very large store network and large employee base. As of 31 December 2022, the company had 1,027 stores and employed 44,490 full-time equivalent workers.

Ceconomy's trading performance in 2022 was weak because of weak consumer sentiment in its main markets (primarily Germany) and rising operational costs (staff, transportation and energy costs). The company's EBIT (as adjusted by Moody's) was €93 million in the 12 months that ended 31 December 2022, compared with €246 million in the fiscal year that ended on 30 September 2021 (fiscal 2021). Ceconomy has limited levers to significantly improve its operating margins in the next 12-18 months because of rising operational costs. Given the inflationary backdrop and the company's high operating leverage, gross margin improvement will be key for Ceconomy to improve its margins in the coming 12 to 18 months, but the intense competitive environment and deteriorating customer purchasing power will constrain sales growth and gross margin improvement in 2023.

In addition, Ceconomy has launched another cost efficiency programme in 2022, whose implementation costs will weigh on profit and cash flow in the next 12-18 months. We expect the company's operating margin to take two to three years to substantially improve to at least 2% (Moody's-adjusted EBIT margin). We expect the company's EBIT to remain low in 2023 at around €150 million (after around €50 million-€60 million of restructuring charges), broadly flat from the level in fiscal 2022 (€149 million).

Ceconomy's key credit metrics will remain weak in fiscal 2023. In particular, the company's interest cover (calculated as Moody's-adjusted EBIT/interest expense) was 0.9x in the 12 months that ended 31 December 2022. While we expect this ratio to improve to above 2.0x by fiscal 2024, the current level of 0.9x is weak for the rating category.

More positively, we acknowledge that management is executing a plan to improve margins, especially through increased sales of its high-margin Services & Solutions offering (6.2% of sales in fiscal 2022), cost and capital spending reductions, increased logistic efficiency and active stock management. In addition, the 2023 economic outlook for the euro area has improved recently compared with our previous expectations, which could support Ceconomy's recovery prospects for fiscal 2023.

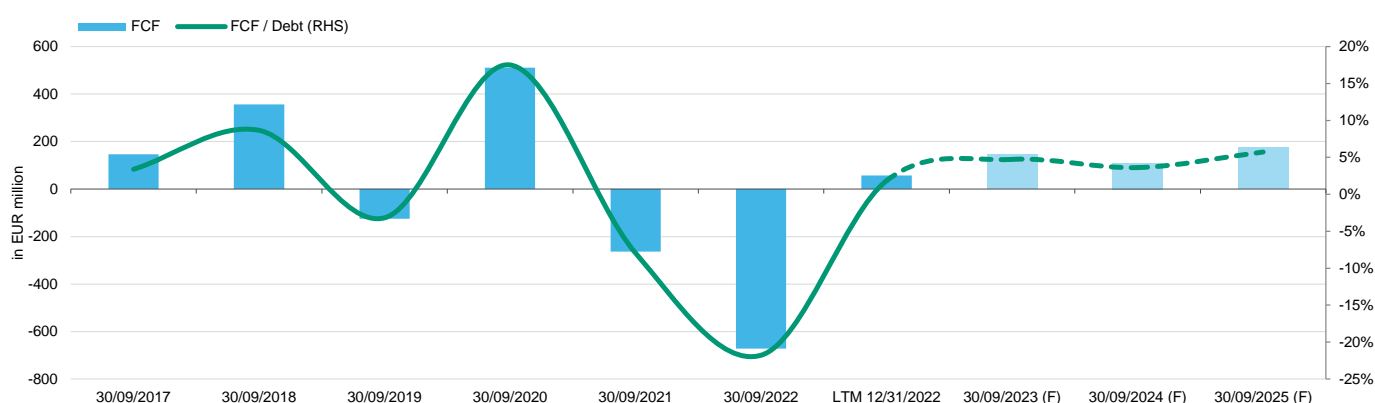

### Margins are weak compared with those of its retail peers and translate into limited FCF

The company's low profitability translates into limited FCF, and makes the company vulnerable to adverse working capital movements. The decline in earnings together with some one-off cash payments in fiscal 2022 (Convergenta transaction, tax deferrals from COVID, pension fund contribution and acquisition of store managers' stake) have led to a significant deterioration in its FCF during 2022. In fiscal 2022, Ceconomy's FCF (Moody's-adjusted) was negative at €672 million. We expect the company's FCF to return to positive territory in fiscal 2023, mostly thanks to the absence of one-off elements and some reversal of working capital. However, Ceconomy's FCF will remain limited, at around €100 million, and will be largely dependent on working capital inflow.

Exhibit 5

### FCF will likely remain limited in the next 12-18 months

Moody's-adjusted FCF and FCF/debt

Source: Moody's Investors Service

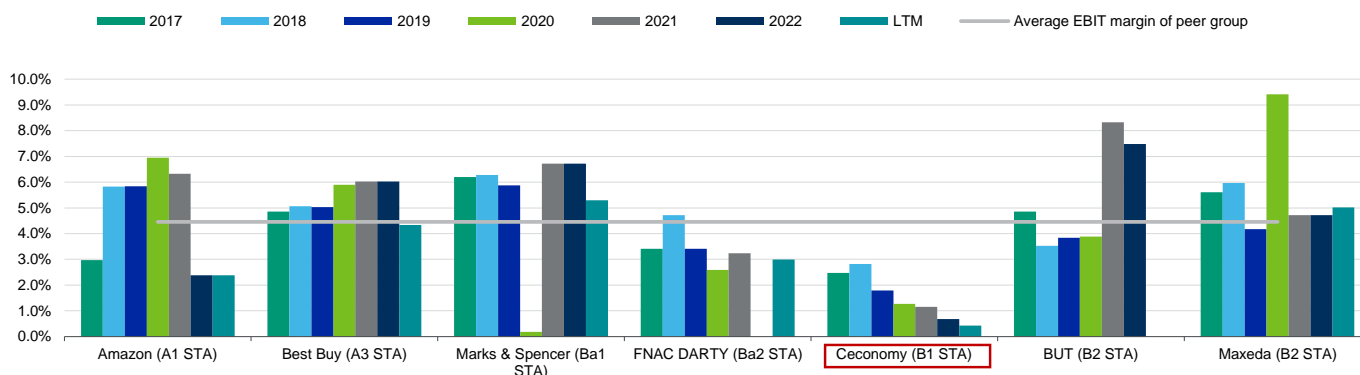

Ceconomy has a strong market position as Europe's largest electronics retailer with geographically well-diversified operations and a strong distribution network, which could support a turnaround and an improvement in FCF. But the fact that margins remain under

pressure highlights the company's sensitivity to external events beyond management's control. The company's Moody's-adjusted EBIT margin was 0.4% in the 12 months that ended December 2022, significantly lower than that of its peers (see Exhibit 6).

Exhibit 6

### Ceconomy's profitability is lower than that of its peers

#### Moody's-adjusted EBIT margin

Source: Moody's Financial Metrics™

Over time, from fiscal 2024, and under more normalised trading conditions, we expect the company's strategic initiatives launched in the last two years to support margin improvement. The company aims to improve operational efficiency by centralising the group further, notably in terms of IT platforms and supply chain management; introducing new product categories (smart home, urban mobility, and health and wellness), including a gradual shift to services and solutions (repair, warranties and consumer financing); and increasing online penetration (towards 30% of sales targeted in the mid-term, vs. 24.6% in fiscal 2022); expansion of its own marketplace; and development of retail media activities.

### Low funded debt and conservative financial profile; low earnings and weak FCF mean limited capacity to incur additional debt

Ceconomy maintained a modest leverage (Moody's-adjusted gross debt/EBITDA) of 3.9x as of 31 December 2022, supported by low funded debt. As of the same date, the company reported funded debt of €1.1 billion, equivalent to 1.4x its reported EBITDA. We expect its leverage to remain below 4.0x in the next 12-18 months.

While the company's low level of funded debt gives it some financial flexibility and time to improve its earnings to more appropriate levels, the company does not have the ability to carry high levels of debt given its weak profitability, which is persistently translating into limited FCF.

### Largest European consumer electronics retailer, with geographically well-diversified operations across 12 countries

With its two brands, MediaMarkt and Saturn, Ceconomy has a long history in consumer electronics retail and very high brand awareness in all the countries where it operates. The company is Europe's largest consumer electronics retailer by a significant margin — its revenue is around 2x that of Currys plc. and 3x that of Fnac. Ceconomy has outright market leadership in five countries, including the large markets — Germany and Spain. In its home market of Germany, and in Austria, the company has the largest market shares. These high market shares are vital drivers of Ceconomy's performance, largely because they afford better economies of scale than those of its key competitors.

On 14 February 2023, the company announced its decision to sell most of its activities in Sweden to local retailer Power Sweden. Although Ceconomy will pay a mid-double-digit million euro amount as part of the transaction, we view this disposal as credit positive in the long term because Swedish activities were a drag on its EBIT and FCF in the last few years.

### Demand for a large portion of Ceconomy's product range is seasonal and discretionary

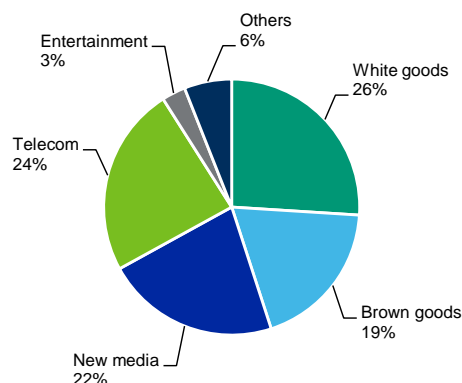

In addition to the general macroeconomic drivers of overall consumer spending, the consumer electronics sector is influenced by a number of other factors, including product evolution, demographic changes, as well as high and growing digitalisation and connectivity. The discretionary nature of the different product categories within the consumer electronics sector varies widely. White goods (more

than 40% of the European market), such as washing machines and dishwashers, are less discretionary and largely replacement driven, while products such as home entertainment gadgets are highly discretionary, with demand being more volatile and subject to the strength in consumer confidence.

Exhibit 7

#### High reliance on consumer electronics products

Revenue split by product category (excluding services sales) in fiscal 2022

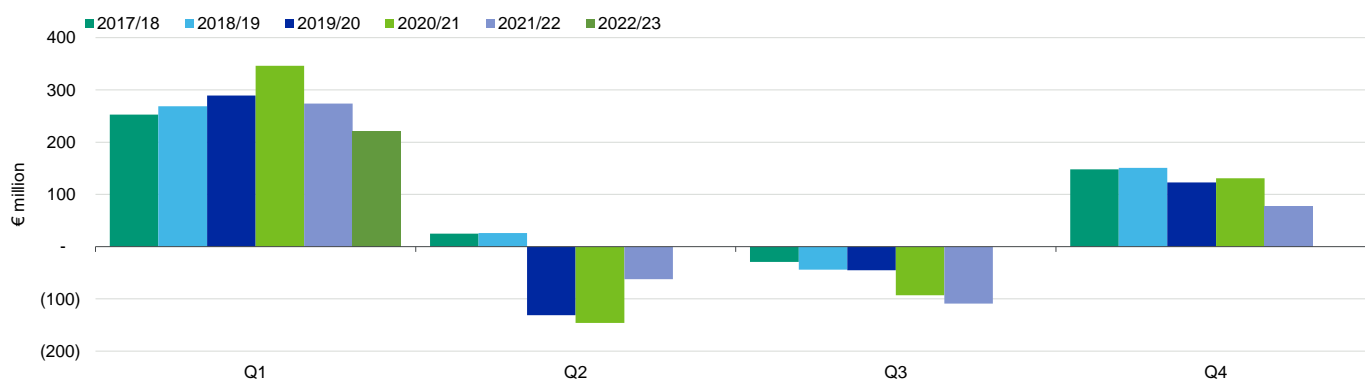

Source: Company's annual results presentation

Ceconomy's business is highly seasonal, with the Christmas quarter accounting for around one-third of its annual sales, but more than 50% of annual EBIT. In recent years, the arrival of the Black Friday concept in Europe, celebrated at the end of November every year, has added further complexity to seasonality as retailers now have to carefully manage two peak periods within a short time frame.

Exhibit 8

#### Ceconomy's business is highly seasonal

Breakdown of reported EBIT by quarter over the last five years

Source: Economy's quarterly reports

#### High working capital swings and reliance on supplier funding

The company's working capital swings are even more seasonal than its profit, with a cash swing of more than €1 billion between the end of September and the end of December, which reverses at the end of March. Strong cash sales receipts and reductions in inventory in the first quarter of Ceconomy's fiscal year are followed by large supplier payments for the Christmas season only being made in the new year, that is, the second quarter of the fiscal year.

Ceconomy has a negative net working capital, with reliance on trade creditor funding. As of 31 December 2022, the company had around €7.3 billion of trade and other payables, of which a large part relates to trade creditors. These trade payables largely exceed

the company's inventory balance of €3.3 billion. Trade payables usually peak at the end of December, the first quarter of the fiscal year, which is the company's key trading period. These begin to unwind at the beginning of each calendar year. If trading performance during Christmas is weak in comparison to what has been planned by the company itself, pressure on liquidity could occur. In view of the company's significant working capital swings during the year and its sizeable trade payables balance, there is a risk that these trade payables begin to unwind if supplier terms become less favourable or the top line is weaker than the company plans. To date we have not witnessed any significant negative shift in supplier's payment terms. But such a scenario would lead to deterioration in liquidity.

## ESG considerations

### CECONOMY AG's ESG Credit Impact Score is Highly Negative CIS-4

Exhibit 9

#### ESG Credit Impact Score

# CIS-4

## Highly Negative

For an issuer scored CIS-4 (Highly Negative), its ESG attributes are overall considered as having a discernible negative impact on the current rating. The negative influence of the overall ESG attributes on the rating is more pronounced compared to an issuer scored CIS-3.

Source: Moody's Investors Service

**CIS-4.** Ceconomy's ESG Credit Impact Score is highly negative, which mostly reflects its exposure to governance risks. Ceconomy's high corporate governance risks, reflects its high management turnover and a limited track record of earnings improvement in the past five years, which is mitigated to some degree by the company's intention to maintain conservative financial policies. Exposure to environmental and social risks is moderate. Environmental risks mostly relate to carbon transition in the company's retail operations namely transportation, while social risks reflect Ceconomy's exposure to customer relations and societal trends, notably the ongoing shift to online.

Exhibit 10

#### ESG Issuer Profile Scores

ENVIRONMENTAL

## E-3

Moderately Negative

SOCIAL

## S-3

Moderately Negative

GOVERNANCE

## G-4

Highly Negative

Source: Moody's Investors Service

### Environmental

**E-3.** Ceconomy's varied assortment of products means its environmental risks are moderate and mostly relate to carbon transition in respect of transportation costs to its retail network.

### Social

**S-3.** Social risks are moderate for Ceconomy and mainly relate to customer relations and demographics & societal trends. This mostly reflects business risks associated with the structural shift of the retail consumer electronics sector towards e-commerce, which creates intense competition and margin pressure for incumbent retailers. However, Ceconomy has significantly strengthened its online capabilities in the past 5 years, which somewhat mitigates this risk.

## Governance

**G-4.** Ceconomy's highly negative governance risk score reflects the company's high management turnover and limited track record of earnings improvement in the past 5 years. We believe that the recent deterioration in earnings as well as the limited track record in being able to reliably forecast earnings and cash flow effects, despite some external events being beyond management's control, translates into a highly negative score for Management Credibility & Track Record. More positively, Ceconomy has low funded debt and has paid very limited dividends to date, which evidences the company's intentions on having conservative financial policies. The management structure has been streamlined since 2021 with one CEO and one CFO for both Ceconomy and its MediaMarktSaturn subsidiary. In 2022, Ceconomy also completed the Convergenta transaction, which simplified the group's decision-making and has unlocked substantial tax savings.

ESG Issuer Profile Scores and Credit Impact Scores for the rated entity/transaction are available on Moodys.com. In order to view the latest scores, please click [here](#) to go to the landing page for the entity/transaction on MDC and view the ESG Scores section.

## Liquidity analysis

The company's liquidity profile is adequate. Ceconomy had around €2.6 billion of cash available at the end of December 2022 and its committed revolving credit facility (RCF) of €1.06 billion was undrawn. The company has no major debt maturities until 2026, with only €83 million of short-term commercial paper due over the next 12 months.

However, Ceconomy's business is highly seasonal and remains heavily reliant on trade creditor funding (€7.3 billion of trade payables as of the end of December 2022), which is very material in the context of the company's overall liquidity profile and limited FCF. We have not witnessed any significant negative shift in supplier's payment terms in recent months. However, a shortening of payment terms can be a key risk for Ceconomy, which may cause substantial working capital swings and rapid liquidity deterioration.

## Structural considerations

The senior unsecured notes are rated B2, one notch below the B1 CFR. The notes rank behind large non-debt liabilities, including sizeable trade claims and short-term lease liabilities, both at the operating subsidiary level. The magnitude of these non-debt liabilities creates structural subordination for debt at the holding company level, including the senior unsecured notes, which do not benefit from upstream guarantees. Ceconomy's capital structure also includes around €121 million of promissory notes and the €1.06 billion syndicated bank facilities.

In addition, assets owned by Ceconomy, notably its 24% stake in Fnac, previously provided some mitigation to structural subordination. However, the protection for the senior unsecured notes is weaker than in the past given the decline in the value of Fnac's stake, worth only around €250 million as of 23 February 2023.

## Methodology and scorecard

The principal methodology used in rating Ceconomy was the [Retail](#) rating methodology, published in November 2021. The scorecard-indicated outcome based on Ceconomy's financials in the 12 months that ended December 2022 and our forward-looking view is Ba2, two notches above the CFR. The difference with the CFR is explained by the company's very low operating margins, weak interest coverage, and limited FCF, which are not likely to improve significantly in the next 12-18 months.

CREDIT RATINGS ISSUED BY MOODY'S CREDIT RATINGS AFFILIATES ARE THEIR CURRENT OPINIONS OF THE RELATIVE FUTURE CREDIT RISK OF ENTITIES, CREDIT COMMITMENTS, OR DEBT OR DEBT-LIKE SECURITIES, AND MATERIALS, PRODUCTS, SERVICES AND INFORMATION PUBLISHED BY MOODY'S (COLLECTIVELY, "PUBLICATIONS") MAY INCLUDE SUCH CURRENT OPINIONS. MOODY'S DEFINES CREDIT RISK AS THE RISK THAT AN ENTITY MAY NOT MEET ITS CONTRACTUAL FINANCIAL OBLIGATIONS AS THEY COME DUE AND ANY ESTIMATED FINANCIAL LOSS IN THE EVENT OF DEFAULT OR IMPAIRMENT. SEE APPLICABLE MOODY'S RATING SYMBOLS AND DEFINITIONS PUBLICATION FOR INFORMATION ON THE TYPES OF CONTRACTUAL FINANCIAL OBLIGATIONS ADDRESSED BY MOODY'S CREDIT RATINGS. CREDIT RATINGS DO NOT ADDRESS ANY OTHER RISK, INCLUDING BUT NOT LIMITED TO: LIQUIDITY RISK, MARKET VALUE RISK, OR PRICE VOLATILITY. CREDIT RATINGS, NON-CREDIT ASSESSMENTS ("ASSESSMENTS"), AND OTHER OPINIONS INCLUDED IN MOODY'S PUBLICATIONS ARE NOT STATEMENTS OF CURRENT OR HISTORICAL FACT. MOODY'S PUBLICATIONS MAY ALSO INCLUDE QUANTITATIVE MODEL-BASED ESTIMATES OF CREDIT RISK AND RELATED OPINIONS OR COMMENTARY PUBLISHED BY MOODY'S ANALYTICS, INC. AND/OR ITS AFFILIATES. MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND PUBLICATIONS DO NOT CONSTITUTE OR PROVIDE INVESTMENT OR FINANCIAL ADVICE, AND MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND PUBLICATIONS ARE NOT AND DO NOT PROVIDE RECOMMENDATIONS TO PURCHASE, SELL, OR HOLD PARTICULAR SECURITIES. MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND PUBLICATIONS DO NOT COMMENT ON THE SUITABILITY OF AN INVESTMENT FOR ANY PARTICULAR INVESTOR. MOODY'S ISSUES ITS CREDIT RATINGS, ASSESSMENTS AND OTHER OPINIONS AND PUBLISHES ITS PUBLICATIONS WITH THE EXPECTATION AND UNDERSTANDING THAT EACH INVESTOR WILL, WITH DUE CARE, MAKE ITS OWN STUDY AND EVALUATION OF EACH SECURITY THAT IS UNDER CONSIDERATION FOR PURCHASE, HOLDING, OR SALE.

MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS, AND PUBLICATIONS ARE NOT INTENDED FOR USE BY RETAIL INVESTORS AND IT WOULD BE RECKLESS AND INAPPROPRIATE FOR RETAIL INVESTORS TO USE MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS OR PUBLICATIONS WHEN MAKING AN INVESTMENT DECISION. IF IN DOUBT YOU SHOULD CONTACT YOUR FINANCIAL OR OTHER PROFESSIONAL ADVISER.

ALL INFORMATION CONTAINED HEREIN IS PROTECTED BY LAW, INCLUDING BUT NOT LIMITED TO, COPYRIGHT LAW, AND NONE OF SUCH INFORMATION MAY BE COPIED OR OTHERWISE REPRODUCED, REPACKAGED, FURTHER TRANSMITTED, TRANSFERRED, DISSEMINATED, REDISTRIBUTED OR RESOLD, OR STORED FOR SUBSEQUENT USE FOR ANY SUCH PURPOSE, IN WHOLE OR IN PART, IN ANY FORM OR MANNER OR BY ANY MEANS WHATSOEVER, BY ANY PERSON WITHOUT MOODY'S PRIOR WRITTEN CONSENT.

MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND PUBLICATIONS ARE NOT INTENDED FOR USE BY ANY PERSON AS A BENCHMARK AS THAT TERM IS DEFINED FOR REGULATORY PURPOSES AND MUST NOT BE USED IN ANY WAY THAT COULD RESULT IN THEM BEING CONSIDERED A BENCHMARK.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the credit rating process or in preparing its Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING, ASSESSMENT, OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at [www.moodys.com](http://www.moodys.com) under the heading "Investor Relations — Corporate Governance — Charter Documents - Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY100,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
